

Topic 7: Getting the message across

Work Sheet 7F: Government Report

Create a time line from January 1941 to June 1942, cutting and pasting key data from the web pages to significant dates on your time line.

Download a map and on it mark places of significance in the Japanese advance.

For this exercise, you are a high-level adviser to the government. Write a report on the events identified on your time line and the threat to Australian forces or to the Australian homeland. Consider issues of security – who are you addressing and what form does your report take?
